

# Cloud Computing

Selling. Delivering. Serving your customers and running your business. That should be your focus and is the reason we developed PROFITsystems on-Demand. When it is time to replace your current software you may be like many retailers who face two significant obstacles: limitations of cash and technical expertise. PROFITsystems onDemand solves both of these problems. You can benefit from the superior functionality of RETAILvantage in a way that dramatically reduces your cost of entry, cost of ownership, and the burden of maintaining a computer network. PROFITsystems onDemand makes it easier and more affordable than ever to gain the competitive advantage of the industry's leading business management software system.

PROFITsystems onDemand is a cloud computing solution which means it can be accessed anywhere in the world via the internet, and since RETAILvantage and your data are hosted on our servers, we provide the technical expertise and maintenance. It is also a subscription service so you can easily scale it to meet the demands of your business cycles. What makes PROFITsystems onDemand an essential business tool? Gaining a competitive advantage requires a system that provides robust point-of-sale, real time inventory management, productivity enhancing sales management, dynamic customer relationship management, business intelligence reporting, and fully-integrated automatic accounting. Only RETAILvantage provides all these benefits in the most cost effective method through PROFITsystems onDemand.

## BENEFITS
