Getting Started Right

Seeing a return on your investment as soon as possible is extremely important when you make a software purchase. Our number one goal is to get you up and running quickly on RETAILvantage so you begin experiencing the benefits immediately. To make sure that happens, we created the Getting Started Right program which is a proven process that guides you through each step of implementation.

How does Getting Started Right work? First, we help you determine when you would like to “go live” with your new software. This is when you want to be completely off your old solution and working entirely within RETAILvantage. This time varies depending on the particular client’s needs and resources. Some companies want to be up and running in the shortest time possible so they dedicate as many resources as possible. Others may be working around a fiscal quarter or accounting calendar.

Once we know your target live date, you will work closely with an expert who specializes in making sure that everything is set up to the unique needs of your business and that you understand how and why each task is accomplished in a specific manner. Your set up specialist will provide deadlines and help you stay on track. To keep the process as effective as possible, you will work with the same expert every time. Clients who complete the Getting Started Right program are some of our most successful and profitable.

Our Getting Started Right program is the most comprehensive implementation plan dedicated to your success.

PROFITsystems’ Getting Started Right program offers comprehensive implementation assistance while you are setting up your RETAILvantage software. Your Getting Started Right Representative will help you create a customized Implementation Plan with your goals and unique business model in mind. You have the force of our industry experts working together to ensure you are “Getting Started Right”, guaranteed!*

The standard Getting Started Right Implementation Plan is 90 days, however this time frame may be adjusted depending on certain factors such as the resources dedicated to the project, the amount of data to enter, file conversions, and more. Your Getting Started Right Representative will assist you in determining your specific implementation project timeline in your initial meeting.

ABOUT PROFITSYSTEMS

PROFITsystems is the leading total solutions provider for the home goods and furniture industry. Key components of their retail solutions include enterprise software, consulting, performance groups, advanced education, group-buying freight programs, eCommerce and business intelligence. PROFITsystems' flagship product, RETAILvantage, features real-time inventory management, customer relations management, point-of-sale, and accounting systems. For additional information on PROFITsystems, please visit their website at: www.profitsystems.com

"PROFITsystems is the BEST! It's not just the software program, it's the PEOPLE. Management and staff are top notch. Their Support Team is well trained, timely, and very helpful. Education is more like having our own business coach. We are a small furniture company, but they have made us feel as important as their largest customer."

30 DAYS	PHASE I INSTALLATION	<p>Systems Support is available during your hardware and software installation. The Systems department will assist you with installation of RETAILvantage and will ensure that your installation is successful.</p> <p>Create your custom implementation plan timeline with your Project Lead and your PROFITsystems' Getting Started Right Representative.</p>
60 DAYS	PHASE II DATA LOAD	<p>When the installation phase is complete, a dedicated On-line Setup Specialist will provide step-by-step training on how to enter your data. In a series of one-hour telephone appointments, your On-line Setup Specialist will guide you in identifying and entering:</p> <ul style="list-style-type: none"> • Preferences: These are settings unique to your business model and key to the customization of your system. Your On-line Setup Specialist will work closely with your Project Lead to examine your business model and make recommendations for unique circumstances within your store. • Codes: These are lists used by the system: i.e. Buildings, Commissions, Payment Terms, Categories, and Sales Tax Rates. • Master Vendor, Item, and Customer Files: This is generally the most time consuming portion of your implementation and most critical. Data conversion services are available for reduced manual data entry. • Transaction Files: Enter existing orders, sales, receivables, and payables.
90 DAYS	PHASE III TRAINING/LIVE	<p>The Daily Processing Class is recommended for your Project Lead and key members of your staff to learn how to use and process daily operations in RETAILvantage. Upon completion of the class, you will perform a physical inventory, reconcile balances, and arrange internal training of your staff.</p> <p>GO LIVE and begin enjoying the benefits RETAILvantage offers for your business.</p>
